

## Vintage Steam Train

Engine No. 14 is a Baldwin 2-8-0 Consolidation Steam Locomotive originally built for the Duluth & Northeastern RR in 1913. Purchased by the Fillmore & Western Rwy in December of 1999 from the Dodge City RR in Dodge City, Kansas, it was fully restored to operating condition and ran under steam for the first time in over 50 years on December 5, 2010—temporarily out of service.

## Santa Clara River Valley Railroad Historical Society

### Mission Statement

The Santa Clara River Valley Railroad Historical Society was established in 1993 to assist in the preservation and restoration of the railroad corridor between Montalvo and Saugus, California. This railroad corridor, commonly referred to as the Southern Pacific's Santa Paula Branch, is a unique and historic asset to the residents of the Santa Clara River Valley and the surrounding area. To maximize the economic, educational, and recreational value of this asset, the Organization will acquire, preserve, exhibit, and operate historic railroad equipment; in addition, it will collect, preserve and display artifacts, photographs and operational documents unique to the region.
